

ABSTRACT OF THE DISCLOSURE**5 PROPERTY EDITOR GRAPHICAL USER INTERFACE APPARATUS, METHOD
AND COMPUTER PROGRAM PRODUCT**

An apparatus, method and computer program product for selecting and displaying graphical user interfaces for
10 editing properties are provided. With the apparatus, method and computer program product, metadata associated with a property is analyzed to determine a type of editor associated with the property. This determination may include identifying one or more PropertyEditor Interface
15 methods invoked by the property editor. Based on the type of editor associated with the property, one of a number of predetermined graphical user interfaces is selected. The selected graphical user interface is provided to a user who may use the graphical user interface to thereby edit the
20 property.
